WHO WE ARE

Kakanga Construction is a leading Malawian construction company with a reputation for excellence in building design, civil engineering, and prefabricated structures. Since our inception, we have been committed to transforming visions into reality through innovative construction solutions that meet international standards. Our expertise covers a wide range of projects, from residential homes and commercial complexes to industrial warehouses and public infrastructure. With a strong emphasis on quality craftsmanship and client satisfaction, we have positioned ourselves as a trusted partner in Malawi's growing construction industry.

all our work.

What sets us apart is our dedication to modern construction techniques and sustainable practices. We specialize in prefabricated structures, which allow for faster, more cost-effective, and environmentally friendly building solutions without compromising durability. Our team stays ahead of industry trends by incorporating advanced materials and smart construction methods, ensuring that every project we undertake is built to last. Whether it's a custom designed home, a steel warehouse, or a government infrastructure project, we bring the same level of precision and professionalism to

*ffakanga Construction is powered by a team of skilled professionals engineers, architects, and builders who uphold our standards of excellence through continuous training and strict safety compliance. Our collaborative culture ensures efficient project delivery while maintaining quality and budgetary discipline.*

Beyond bricks and mortar, we're committed to Malawi's progress\*\*. By creating local jobs and partnering with government and private sectors, we contribute to national development while building towards regional expansion. Our work isn't just about construction it's about laying foundations for a stronger future.

**Building  
with quality  
and  
integrity to  
move  
Malawi  
forward.**

## Our Vision

To grow and become a successful bigger company that can work even International, whereby so doing creating job opportunities for the non working people, helping the Government to develop our country and improve lives of our Employees.

## Our Mission

A quality products, satisfactory services, accountability and Safety is our mission.

## House Design & Construction

We professionally design structures and construct. We also construct all kinds of design presented to us. Trust us, we will transform your document/plan into that reality as planned without changing any feature or Dimensions on the plan.

## Civil Works

Installing culverts for drainage, reshaping surfaces for smooth travel, and building small bridges for safe crossings improving roads for better access and less maintenance.

## Prefabricated Structures

We offer professional installation of prefabricated structures, including panel buildings and steel warehouses. Our process includes site preparation, foundation laying, and quick assembly of pre-made walls, roofs, and frames. With precise factory made components, we ensure fast, cost effective, and durable construction perfect for warehouses, workshops, and storage facilities. Trust us for efficient, high-quality

## Supply of construction related materials

We provide end-to-end import solutions for prefabricated structures and materials from China, ensuring quality, compliance, and timely delivery.

## Steel Structures Construction

We build different infrastructures for example Build House or Offices, Foam and Concrete works and Masonry works.
